# Bel Power Solutions Capabilities in Europe

Bel Power Solutions has an extensive presence throughout Europe providing best-in-class customer service, technical support, and engineering capability to our European customers.

With world-class Engineering locations in Italy, Switzerland and Slovakia, Bel Power Solutions has excellent capability to understand customer needs and to develop custom and standard solutions. Local Engineer-to-Engineer discussions help BPS to quickly grasp the customer requirements and bring this information directly back to the lab. With manufacturing in Slovakia, products can be quickly moved to production with the help of local Project management resources.

Bel Power Solutions has several Regional Sales Managers and technical support resources throughout Europe as well as local distributors to help service the customers at a local level. Pre-Sales and Post-Sales support teams are located in all locations, led by a strong team of Customer Service and Inside Sales Specialists in Limerick, Ireland to help provide you with the support you need often in your local language. Bel Power Solutions looks forward to being your partner for Power in Europe.

a bel group

Bel is a publicly traded company that has been operated by the same family for over 65 years. Our history of organic growth and acquisitions have broadened our product portfolio. This has established Bel as a world leader with a diverse offering of power, protection and interconnect products. We design and manufacture these products which are primarily used in the networking, telecommunications, computing, military, aerospace, transportation and broadcasting industries. Bel's portfolio of products also finds application in the automotive, medical and consumer electronics markets.
