

24th April 2020

EOL for 350INVCH150-120-240-8G / 350INVCH150GT-120-240-8G series

Dear End-Customer or Sales Channel Partner,

As part of our product lifecycle management process, Bel Fuse provides notification when a product has reached End-Of-Life (EOL) status. EOL decisions are based on our review of material availability, historical unit shipment volume and product revenue performance. Products designated for End-Of-Life will be available for a last time buy purchase prior to being made obsolete, if material permits. The products identified for inclusion into our Last Time Buy Program are listed within this document.

Last Time Buy (LTB) orders accepted until 31st December 2020.

Last Time Shipments until 31th March 2021.

After the indicated dates, the affected products will be considered obsolete. Acceptance of last time buy orders is subject to product and material availability and at the discretion of Bel Fuse. Every effort will be made to fulfill these orders. Purchase orders for these products will be considered Non-Cancellable, Non-Returnable (NCNR). At the moment, we can build only 90 pieces. The replacement model we can offer you is our combo unit with part number 350INVCH240-120-240-8Sxxx. The datasheet is attached to this mail / letter. This product will be in mass production in September 2020. If you have any questions concerning this End-of-Life notification, please contact your Bel Fuse Customer Service Representative.

We would also like to take this opportunity to thank you for your business in the past and to assure you that everything we do is aimed at becoming your power supply partner of choice in the future.

Best Regards,

Frank Vondenhoff
